MousePen Pro

PC

Introducing the MousePen from Appoint, the world's first computer mouse you use like a pen. Unbelievably light, responsive and easy to use, the MousePen rests naturally in either hand and has a more instinctive feel than a conventional mouse.

Like a ball point pen, The MousePen works great on an ordinary pad of paper (no mouse pad required). You can even put your feet up and use the MousePen on your pant leg or the cover of your favorite magazine.

The MousePen is 100% compatible with all Microsoft serial and IBM PS/2 mice. It also uses existing drivers in Windows and works with Microsoft or IBM OS/2 drivers. The MousePen is a high dexterity mouse, ideal for use on desktop publishing, CAD, illustration and all of today's demanding graphic applications.

Natural, Pen-shaped Design • Great for Artists and Children
Perfect for High-Dexterity Applications
